PRESS RELEASE

David Gill Gallery announces New Interpretations 2026: a new phase for the Francis Sultana x Bonacina design collaboration

18 June–27 July 2026

David Gill Gallery is pleased to the launch New Interpretations, a series of ten new pieces for the indoor/outdoor Francis Sultana x Bonacina Collection. The first phase launched in 2023, with ten pieces at Milan Design Week, this exciting extension expands the hugely popular series that straddles indoor and outdoor furniture, created in Bonacina's signature rattan and Rolon weave.

The new pieces channel faraway destinations, from the Caribbean to the Mediterranean, and include a fabulously decadent daybed and a wonderfully retro drinks trolley. Many of the pieces move effortlessly between city living and pool side.

The Francis Sultana x Bonacina Collection combines the stylistic signature of the award-winning designer with the Italian historic brand's excellent craftsmanship and technical virtuosity. "The new additions to our collection are some of my favourite pieces and I am excited to see them come to life. Having worked with Bonacina on my interior design projects for many years, I got to know the skill of the craftspeople I have had the pleasure of working with, and it has been a joy to work with them on this project," says Francis.

DAVID GILL GALLERY

A chair, console and two dining tables, with a new iconic dining chair design, are available for the home interior and a coffee table comes in both an indoor and an outdoor version. The new pieces continue in the same visual language across both the weave and the upholstery, with an earthy palette ranging from natural rattan and deep pinky coral to light green, ice blue and white, that ensure the pieces can work seamlessly across all climates.

Each product is entirely handmade in Bonacina's Italian workshop and offers the designer's ode to the natural world which is evident throughout the collection: "My inspiration for this collection comes from nature as well as the illustrious collaborations from the history of Bonacina, which gave me the inspiration for my collection," says Francis.

Bronze details embellish the pure lines of the pieces with silhouettes that evoke plants and sea creatures such as corals. "The pieces look delicate, but they are incredibly robust with the high-quality manufacture of Bonacina combined with my signature detailing, meaning for me they will be lasting design pieces, in the true history of the Bonacina collaborations".

ABOUT FRANCIS SULTANA

Francis Sultana is one of the world's foremost interior and furniture designers, working across residential, hospitality and commercial projects around the world. The main studio is based in St James's, London in the same building as David Gill Gallery, of which Sultana is also Artistic Director & CEO. Francis Sultana is the go-to interior designer for international collectors, many of whom have major contemporary art and design collections. Loved for his unique ability to merge the residential requirements of a domestic or commercial space with often large-scale visual art, sculpture and installation pieces, his studio is currently working on projects in the UK and across Europe, the Middle East and the US.
