

REBUILDING REASON

4th-28th Oct 2024

SEBASTIAN ERRAZURIZ

David Gill Gallery is delighted to announce 'Rebuilding Reason'.

Continuing an exploration of antiquity, Errazuriz creates works that explore eternal notions of human experience, scale and proportion. Abstracting ancient sculptures, Errazuriz reevaluates our relationship to immediately recognisable canons of art, blurring boundaries between technology, design and craft.

Sculptures that once adorned archaeological sites now serve as structural elements for everyday objects. Figures from classical friezes morph into table bases and shelf supports, while curated artifacts are integrated into furniture. This act of appropriation and transformation brings a new narrative to traditional forms and creates a dialogue between the monumental and the intimate.
